Executive Summary

Gossamer Crossing operates internationally, specializing in Critical Needs Infrastructure Development in East & Central Africa providing general engineering and construction services; mapping, surveying & GIS support; and instituting Stability & Development programs. Working with the United Nations and Local Governments in Africa, we provide jobs for the local populace and stimulate the economy resulting in their ability to develop support programs, increase stability, and grow infrastructure to improve living conditions.

“We are ethically compelled to act when the need is great and the solution is simple.....Gossamer Crossing has the resolve, skill and ability to make a measurable difference.”

Corporate Responsibility: Gossamer Crossing strictly adheres to the **United Nations Global Compact** concerning human rights, labor, the environment, and anti-corruption. Additionally, Gossamer Crossing conducts and funds programs providing local support in:

- Vocational Training
- Community Programs
- Technology Donations

Company Philosophy **Amicus Humani Generis** – (“A Friend to All”)

Preventable human suffering is an inexcusable crime against humanity, especially when the international and local intellect to act is present. Gossamer Crossing is passionate about the marriage of expertise and execution to enrich others. By providing opportunities for others, the work we accomplish, matters!

Gossamer Crossing’s approach is professional, open collaboration. We integrate with the local populace to find a common cohesive approach that meets the needs of our clients. Gossamer Crossing is focused on developing lasting relationships that provide analytics, trust and results. Working on a community level, accounting for the variables present, Gossamer Crossing creates, builds and maintains long-term solutions.

Vision

Gossamer Crossing’s vision is to continue to develop a strong relationship and trust foundations with Governments, NGOs, and civilian enterprise partnerships in order to focus our professional capabilities solely on the African continent.

Values

Communication – achieve operational excellence through strong positive collaborative internal and external communication.

Attention to Detail –a higher standard in reporting, auditing, safety, cost control and ultimate project completion.

Execution – efficient, on-time, and consistent; exceeding the standards required by the client.

Mission Statement

Gossamer Crossing provides complete critical infrastructure development, supporting stability operations in Africa in order to reliably deliver innovative, mission driven, budget conscious solutions to defined problems.

Company History

Gossamer Crossing has a well-documented success history on the African continent. We have excelled in infrastructure development supporting NGO/UN/enterprise initiatives. Gossamer Crossing's approach is optimized integration; as all key divisions work collaboratively along with the client to ensure the timely delivery of a quality product.

Area of Operations

Gossamer Crossing conducts operations on the entire African Continent with a primary focus on Central and East African Countries.
